SUBMISSION OF SUBSTITUTE  
SPECIFICATION UNDER  
37 CFR 1.125(a)**

Dear Sir:

Pursuant to a request from Examiner Switzer and the Office of Patent Publications, Applicants hereby submit a substitute specification under 37 CFR 1.125(a) for the above- identified application, since the print quality of the originally submitted specification was allegedly poor. The original specification comprised text specification pages 1-101, claims on pages 102-133, an Abstract on page 134, and eight sheets of figures. Examiner Switzer has requested that we submit only substitute pages for text pages 1-101 of the specification and that we do not need to file substitute pages for the originally filed claims (pages 102-133), Abstract (page 134), or figures (eight sheets). **Therefore, please replace pages 1-101 of the originally filed specification with the enclosed substitute specification pages 1-101.** This substitute specification is identical to the specification originally filed and presents no new matter.

Pursuant to a request from Examiner Switzer for the convenience of the Office, Applicants are concurrently submitting herewith an Amendment Under 37 CFR § 1.312, which provides all amendments to be made to this substitute specification comprising pages 1-101, including those made previously during prosecution of this application. This Amendment also contains several amendments to the specific paragraphs in the specification to include Sequence Identification Numbers (SEQ ID NOS), pursuant to a request from Examiner Switzer. Thus, all necessary amendments to this substitute specification are being provided in the Amendment Under 37 CFR § 1.312 submitted concurrently herewith. Conveniently, the Office will not need to review the prosecution file for any additional amendments to this substitute specification.

Applicants note that formal drawings (with amendments) were submitted previously during prosecution. In addition, Applicants note that a new paper copy of the Sequence Listing is being submitted concurrently herewith pursuant to a request from Examiner Switzer.

If any further information or action is needed, the Examiner is invited to telephone the undersigned at (650) 298-5809.

Respectfully submitted,

Margaret A. Powers
